## CITY "DADS" MEET

### High Interesting Meeting. Water Question Still on Tap

A meeting of the Council was held on Thursday evening. Mayor Frost occupied the chair. Members present were Councilors Hanson, Vanhorn, Barclay, Cunningham, Holmes and Miller.

W. C. Miller was duly sworn in as recorder by solicitor Haslam.

Minutes of previous meeting were read and adopted.

Moved by Vanhorn—Brought the following bills be paid:

W. C. Miller.....\$2.00  
Clareholm Review.....\$25.00  
Tuskey & Robertson.....\$25.00  
Chas. Booth.....\$15.91  
W. B. Doyle.....\$4.45  
Cotton & Bevan.....\$4.45  
J. M. Soley.....\$22.47

Under head of fire wall Mr. Walsh was present to give statistics on difference in insurance when fire wall or two were put in claiming a reduction of nearly half present rates, recommending that council make a municipal vote on the matter.

Moved by Barclay—Carried that we send a committee to the municipal court to be presented to the legislature that they municipality be empowered to build fire walls on request of two-thirds of the taxpayers who the insurance is thereby adjusted and to assess cost of said wall or walls against said taxpayers in a franchise tax extending over from one to four years. Carried.

Mr. Edwards reports that the engine are all right but that an explanation that the engine which has given trouble is apparently a second hand medium.

Moved by Cunningham—Vanhorn, that secretary write to Graveland re fire engine and also demand a new engine from makers. Carried.

Ti Smith and police committee report some carelessness in allowing scruit fever people come to town and moving through the country.

## A PRETTY WEDDING

### Two Prominent Young People of Clareholm Become as One

#### GETTS-SWAIN

A very pretty but quiet wedding took place at the Presbyterian church Tuesday, January 14th at 2 o'clock when Garlo Getts and Marie Swain were united in the holy bonds of matrimony.

Rev. P. Henderson performed the ceremony and Wm. Moffat officiated at the organ. Mendelsohn's beautiful wedding march was played as the father led the bride to the altar, and as the newly married couple departed the church resounded with the strains of the Bridal Procession, by Wagner.

Irvin Getts, brother of the groom, and Miss Jessie Henderson, of Ellettsville, acted the part of bridesmaids and bridesmaid, respectively. After the ceremony, Mr. and Mrs. Getts repaired to the home of the bride's father where a substantial repast consisting of seven courses was served.

The wedding presents were numerous and costly. Both of these young people are well and favorably known in Clareholm and vicinity and their many friends will be glad to hear of their wedding. Garlo Getts has made his home with his mother at the Alberta Hotel for several years and is well liked by all who know him.

Mr. and Mrs. Getts departed on the night train for Grand Forks, Minn. and other points in the States to be gone several weeks. They will be at home in their friends, on 4th avenue after March 1st.

Secretary to ask solicitor Haslam to set after mortgages of pole lines with a view to finding their prices, etc.

The meeting then adjourned.

Tender for hauling of water, for the sum of ten cents per barrel. Will furnish wagon and team to pump the water from the town fire tank or tanks, hauling collected all material and place a stand pipe on railway street on or before May 15th, 1914. Town also to take expenses occurring at the well.

W. C. BURNHAM, JR.

Moved by Barclay—Miller laid water delivery question he left over for a week to give Mr. Tilton a similar chance to bid with Mr. Burnham and say at what rate to deliver water, he furnishing everything but tank, price of water to be 15¢ a barrel and town do the collecting. Carried.

Moved by Barclay—Cunningham, that Mayor Frost, Holmes and Moffat be a delegation to go to Edmonton to present our claims to the government for court house here, also that Mr. Moffat's expenses be paid. Carried.

Secretary to ask solicitor Haslam to set after mortgages of pole lines with a view to finding their prices, etc.

The meeting then adjourned.

MANAGER

# Sask-alta Range

How a Sask-alta thermometer earns its money.

By indicating when oven is ready for baking. By cutting out the "peeping" into oven. By showing on its face what is going on in the oven. By saving "door-opening" heat. By substituting certainty for chance in baking results.

"Sask-alta" range thermometer was tested for six months before one range was sold. "Sask-alta" thermometer is to the housewife what the compass is to the ship captain.

## Grand Attraction Coming.

The Ladies Aid Society of the Presbyterian Church have arranged for a return engagement of the celebrated Scottish soprano and entertainer, Lena Duthie. This charming artist appeared here some two months ago, in company with Miss Margaret Daniel. She will on this occasion, present an entire change of programme.

Her performance is one of pleasing variety and music, laughter and song reign supreme. The date for this attraction is Friday Jan. 20th and the prices are 75c, 50c and 25c.

Considering the very favorable impression left by Miss Duthie, on her previous visit here, a large audience will doubtless attend.

Turn out and help the ladies in their enterprise.

## Notice

This will notify those who have been seriously agitated about my mysterious disappearance that I have at last found myself and am in the best of health. My creditors will confer a favor by referring their accounts to me and those who know themselves to be my debtors will kindly take notice.

W. G. BLACKBURN

## Annual Meeting of the Board of Trade

The annual meeting of the Board of Trade of the town of Clareholm was held in the Court House on Wednesday January, the 18th at 8 p.m.

Mr. Cornwall, the president, took the chair. There were present J. Cannadys, O. J. Anandson, W. P. Teskey, W. C. Miller, G. Simpson, Mr. Merrill, T. M. Haig, C. W. James and T. L. Bernard.

The minutes of the last annual meeting were read and adopted, moved by C. W. James—G. Simpson.

The president read the following report:

Gratiement. Before calling upon the secretary to read the financial report for the past year, it will be in order for me to offer a few remarks as to the work of the Board for the past year and perhaps a few suggestions for the year that we have just entered upon.

## Election Results

Physically it is the vacancy which is caused by the resignation of E. W. Frost to run as Mayor in a large majority over C. S. Noble. The poll stood: W. C. Miller.....96 C. S. Noble.....59 Geo. Farrer.....2

## The Manner of Man.

By HARRISON SMITH.  
Copyright, 1914, by the Associated Literary Press.

The young man had been sitting in a corner of the smoking parlor counting impatiently the time before the lighter cigarette after cigarette more nervously as the train, a half hour late, pulled into the station.

He gripped his suit case, swung himself down from the platform before the train had come to a stop and hurried through the waiting room at a pace approximating a shuffling run into a waiting taxi cab he remounted, turned up the collar of his overcoat, for the evening was decidedly chilly, and gave an address lamely to the chauffeur.

"And, look here, my son," he added, "get a bottle on. How long will it take to get me there? A half hour, eh? Well, there's a quarter in it for you for every minute you take off that half hour—most now let her out. Take a chance!"

The taxi cab hurried away, and the young man lighted a cigarette, smoked vigorously and praising only to urge the chauffeur to even better speed.

They swung into the avenue, dodged in and out amid the stream of traffic, turned into a side street, shot round a corner and stopped finally before a shabby looking house, a house which was identified with every eye as the eye could see.

The young man sprang from the cab, thrust a bill into the chauffeur's

The young man sprang up with a bound, "Margaret!" he called, his eyes glowing. "Margaret!" He caught both her hands in his own, while the rest of the parcels slipped from his arms.

"What are you doing here?" she demanded, when she had recovered somewhat from her surprise.

"Why? What am I doing?" said he. "Why—why?"

"You have broken the rule," she said severely. "The year is not up yet. Why are you here?"

He drew her into the room and gathered her into his arms, and she said to him on the couch.

"I came," said he, "because—because she told me, I thought you would be here because I imagined—land an intuition, you know, that you were living in some such sort of dingy hole as this on just such a shabby street; because I had another premonition that you weren't succeeding tremendously and that you might even be living on 'em'—he called calmly, fishing a cigarette from one of the paper bags he had picked up and holding it out to her.

The girl's eyes flashed. Her lips curled. The color in her cheeks deepened.

"You had no right," she said quickly. "You are spying. You have broken the rule. You said a year, or rather you agreed that for a year—"

"I was a fool," said he, with confidence, "an insufficient fool, ever to be a party to such a silly agreement. I didn't realize that when you went away the place would be so barren, so utterly impossible. But I kept my mouth shut and I kept my eyes shut, and I saw a streak of light. From and I. We sold the Pink Hill house to a couple of millionaires and closed down to \$10,000 apiece out of it. That settled it. You or no year, I had to come. So I came."

"And your promise counted for nothing," said she. "In another month the year would have been up and then—"

"Then what?"

"You could have come without violating any promise."

The young man sat down in the red plush rocker. He is agitated in his eagerness to see her, and he is agitated in his eagerness to see her, and he is agitated in his eagerness to see her.

"I am very glad I have violated the promise, as you choose to call it," he said. "I am very glad I have violated the promise, as you choose to call it."

"I am very glad I have violated the promise, as you choose to call it," he said. "I am very glad I have violated the promise, as you choose to call it."

"I am very glad I have violated the promise, as you choose to call it," he said. "I am very glad I have violated the promise, as you choose to call it."

"I am very glad I have violated the promise, as you choose to call it," he said. "I am very glad I have violated the promise, as you choose to call it."

"I am very glad I have violated the promise, as you choose to call it," he said. "I am very glad I have violated the promise, as you choose to call it."

"I am very glad I have violated the promise, as you choose to call it," he said. "I am very glad I have violated the promise, as you choose to call it."

"I am very glad I have violated the promise, as you choose to call it," he said. "I am very glad I have violated the promise, as you choose to call it."

"I am very glad I have violated the promise, as you choose to call it," he said. "I am very glad I have violated the promise, as you choose to call it."

"I am very glad I have violated the promise, as you choose to call it," he said. "I am very glad I have violated the promise, as you choose to call it."

"I am very glad I have violated the promise, as you choose to call it," he said. "I am very glad I have violated the promise, as you choose to call it."

"I am very glad I have violated the promise, as you choose to call it," he said. "I am very glad I have violated the promise, as you choose to call it."

"I am very glad I have violated the promise, as you choose to call it," he said. "I am very glad I have violated the promise, as you choose to call it."

"I am very glad I have violated the promise, as you choose to call it," he said. "I am very glad I have violated the promise, as you choose to call it."

"I am very glad I have violated the promise, as you choose to call it," he said. "I am very glad I have violated the promise, as you choose to call it."

"I am very glad I have violated the promise, as you choose to call it," he said. "I am very glad I have violated the promise, as you choose to call it."

"I am very glad I have violated the promise, as you choose to call it," he said. "I am very glad I have violated the promise, as you choose to call it."

"I am very glad I have violated the promise, as you choose to call it," he said. "I am very glad I have violated the promise, as you choose to call it."

"I am very glad I have violated the promise, as you choose to call it," he said. "I am very glad I have violated the promise, as you choose to call it."

## DISEASE COMES THROUGH THE BLOOD

To Cure Common Ailments the Blood Must be Made Rich and Red.

Nearly all the diseases that afflict mankind are caused by blood impurities. Water, which is the cause of impurities, but blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities.

It is not too much to say that the blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities.

It is not too much to say that the blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities.

It is not too much to say that the blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities.

It is not too much to say that the blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities.

It is not too much to say that the blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities.

It is not too much to say that the blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities.

It is not too much to say that the blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities.

It is not too much to say that the blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities.

It is not too much to say that the blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities.

It is not too much to say that the blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities.

It is not too much to say that the blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities.

It is not too much to say that the blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities.

It is not too much to say that the blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities.

It is not too much to say that the blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities.

It is not too much to say that the blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities.

It is not too much to say that the blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities.

It is not too much to say that the blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities.

It is not too much to say that the blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities.

It is not too much to say that the blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities.

It is not too much to say that the blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities. Blood is the cause of impurities.

## POWER OF WATER.

Under Certain Conditions it is Practically Irresistible.

When a man is swimming at the surface and slips the water force by his hand or takes a back dive from a pier and lands squarely on his head, he is usually killed. But if he is in a shallow pool, he will not be killed. He will be killed. He will be killed.

It is not too much to say that the water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities.

It is not too much to say that the water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities.

It is not too much to say that the water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities.

It is not too much to say that the water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities.

It is not too much to say that the water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities.

It is not too much to say that the water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities.

It is not too much to say that the water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities.

It is not too much to say that the water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities.

It is not too much to say that the water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities.

It is not too much to say that the water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities.

It is not too much to say that the water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities.

It is not too much to say that the water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities.

It is not too much to say that the water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities.

It is not too much to say that the water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities.

It is not too much to say that the water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities.

It is not too much to say that the water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities.

It is not too much to say that the water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities.

It is not too much to say that the water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities.

It is not too much to say that the water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities.

It is not too much to say that the water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities. Water is the cause of impurities.

## THE THIRTEEN CHICKS.

How difficult it is to pick a truth or fiction from apparently straightforward recitals of the actions of animals is well shown in the following recital of one of our foreign exchanges by a man who lays claim to long experience in breeding game birds.

"I have seen a woman's house with a man in it. The man was in a row in front of her, each exactly in the same way. I should be glad to know whether such a singular case has ever been noted before."

It is not too much to say that the man is the cause of impurities. Man is the cause of impurities. Man is the cause of impurities. Man is the cause of impurities.

It is not too much to say that the man is the cause of impurities. Man is the cause of impurities. Man is the cause of impurities. Man is the cause of impurities.

It is not too much to say that the man is the cause of impurities. Man is the cause of impurities. Man is the cause of impurities. Man is the cause of impurities.

It is not too much to say that the man is the cause of impurities. Man is the cause of impurities. Man is the cause of impurities. Man is the cause of impurities.

It is not too much to say that the man is the cause of impurities. Man is the cause of impurities. Man is the cause of impurities. Man is the cause of impurities.

It is not too much to say that the man is the cause of impurities. Man is the cause of impurities. Man is the cause of impurities. Man is the cause of impurities.

It is not too much to say that the man is the cause of impurities. Man is the cause of impurities. Man is the cause of impurities. Man is the cause of impurities.

## Board of Trade

Firstly, I should like to congratulate our members upon the fact that in spite of heavy expenditures in the line of advertising, purchase of grain envelopes, etc., our secretary is able to show a small surplus on the accounts. Publicity is a class of work upon which, we as a board, cannot pay too much stress and if funds permit it, I would strongly urge upon the incoming board the pursuit of a rigorous advertising and publicity campaign.

It is useless for us to say that our country is well settled up, that there are no homesteads to be obtained within 20 miles of the town in any direction, that we can raise the best and the largest quantity of wheat of any district in Alberta, and that as a consequence we should not waste money advertising our district and thus help the real estate brokers. Now gentlemen, I believe that the first part of these contentions is true, namely that we have at our back a country which cannot be beaten for its wheat and raising qualities, and also in certain sections land suited for mixed farming in a very special degree. At the same time I do not for a moment uphold the contention that because we have these things we should sit still, and as it were, let the food from into our mouths. It is the experience of every town and city on this continent which has made progress along sound financial lines, that a progressive programme of advertising and publicity has resulted in the material development of the town and has served to place its claims prominently before the eyes of the public.

The City and the Calgary, Winnipeg, Vancouver and such a policy of vital importance—how much so should I then say, one even with great possibilities such as ours.

During the year the board undertook the exhibit at the Dominion Fair at Calgary last July. A great deal of comment was aroused among a certain section of the community, by the poor showing made by a town of our importance from an agricultural standpoint. These complaints, we would say in passing, were principally made by the very people, who, when approached for subscriptions towards making the exhibit the worthy one it should have been, generously and unhesitatingly incommensurate with the work for which they were asked to give it. Further comment is unnecessary. Most of you are aware of the manner in which the public and city fathers came to the assistance of most of the Boards of Trade and we feel that in spite of everything that may be said to the contrary, all things considered the exhibit was a marked success. Its fair share of the public attention. The fruits of this exhibit may be said to be apparent for years but we feel assured that in time, if not already the case, the trouble and expense attending the getting up of the exhibit will be amply repaid to us in one way or another. The thanks of the board are due to the gentlemen who so graciously assisted at the exhibit and specially to Mr. Amundson and Mr. North for their disinterested attention to the town and district's exhibit on this occasion.

The executive of the Board have had considerable correspondence and interviews with the superintendent of this division of the C.P.R. in reference to the supply of cars. These interviews have been eminently satisfactory and I feel that we are fortunate indeed in meeting at the head of this division an officer of such ability and of so courteous manner as Mr. Price has proved himself to be. Up to date almost no trouble of grain have been manifested from this point, a considerably over the total wheat shipment from this district for 1937 and I feel that our thanks are due to him. It is for the efficient way in which they have handled our crop and should make like to make mention to this effect by the Board and forwarded by the secretary to the representative at Calgary.

You will doubtless have noticed by the recent press reports that new office has been erected by the company at Winnipeg for an official who is to give his whole time and attention to the car supply for the grain trade, so important has this become to the work here.

While speaking on the subject of transportation I should be remiss were I not to mention the visit which was recently paid to us by Messrs. Woods and Durman of the Herald staff, Calgary. To those of us who were present it was a pleasant and a source of much interest.

struction and we all feel sure that the Herald in particular is to be congratulated upon the active agitation it has pursued for more railways in this province, the result of which are already shown by the adoption of a railway program by the premier of the province.

In order to further strengthen the government I shall ask you to pass a strong resolution in the evening urging the building of such railway and endorsing the government's policy.

A very important matter and one of vital interest to ourselves and to the whole of Alberta is the question of finding a permanent outlet for our grain in the west or via the western route from Vancouver.

I was told by the general manager of the Alberta Pacific Elevator Co. in Calgary a few days ago that trial shipments of grain via Vancouver and the Panama route have been made at a reduction in cost of transportation to Liverpool over the old route via Fort William of ten cents per bushel or 10 cents per bushel. At present this grain has to be loaded in Vancouver before being shipped which consumes the margin of profit, but with the creation of terminal facilities for handling the grain at Vancouver this profit should accrue to the farmer and add over one million dollars annually to real value of the Alberta wheat crop. There can be no question at all that this is our natural market and the sending of our grain by the western route will render us independent of Fort William route and enable the grain raising farmer to obtain the same price for his grain as the Manitoba grower.

I trust that my presence as president of this Board will be to the other members a guarantee to a long degree as possible with any bodies who look to a successful carrying out of these ideas.

It was my pleasure to be present at the recent session of the Calgary Board of Trade as a guest of honor and to reply to the toast of Associated Boards of Trade, the board of those of southern Alberta. It is hoped to make these banquets at least annual affairs and to encourage a feeling of friendliness and mutual aid between the boards of the different towns in the province.

I trust that the next president of this Board will make a strong effort to be present at the next session of this kind and I am sure that from my own experience of a cordial welcome and the best of treatment.

Our Secretary, Mr. Leonard, is resigning the position, which he has held faithfully for the past twelve months and I feel sure we shall miss him. Mr. C. W. James has been asked to act in his stead, and will, I am sure, make a worthy successor.

In regard to myself, having been president of this Board virtually since its inception or reorganization over ten years ago, I am feeling down my collar with a feeling that although perhaps I have not accomplished as much as I could wish, and doubtless you yourselves could have wished, yet my work has not been altogether in vain and I look forward to my successor's patient assistance from all the members of the Board in his undertakings and that moral support in his attitude towards public questions and public interests without which his work, and with it the Clareholm Board of Trade, cannot be brought to those successful issues for the good of our town and of this fair province of ours which we so earnestly wish for.

The secretary read the financial statement which showed a small balance on hand after paying all expenses. Moved by J. Cunningham, W. P. Teskey that the statement be adopted as read. Carried.

The secretary read a letter from the (incoming) Board of Trade regarding a petition for government ownership of grain storage facilities. Moved by W. P. Teskey—W. G. Miller that the petition be placed in the hands of the secretary for circulation. Carried.

The president read a petition regarding the government's policy of railway construction in Alberta which was unanimously accepted, and the secretary was instructed to forward a petition in favor of the scheme to our local member of the provincial house.

The officers for the ensuing year were elected as follows: President, H. L. Wain; vice-president, L. J. Wainman; councillors, W. A. Cornwall, O. J. Amundson and W. P. Teskey; secretary, C. W. James.

Palace Livery, Feed,  
and Sale Stable.

Good driving horses and rubber-tired rigs make driving a pleasure; we supply these and horses you can rely.

Try our feed and stable accommodation; we furnish a palace for equines and are always pleased to accommodate you.
